Dog Owner's Home

VETERINARY

Handbook

This book is not intended as a substitute for the medical advice of veterinarians. Readers should regularly consult a veterinarian in matters relating to their dog's health, and particularly with respect to any symptoms that may require medical attention.

In writing this book, we have described the signs and symptoms that will lead you to a preliminary idea of what is happening with your dog, so you can weigh the severity of the problem. Knowing when to call your veterinarian is very important. Delays can be dangerous.

At the same time, we have sought to provide guidance for the acute or emergency situations that you must handle on your own until you can get your dog to a veterinarian. Life-saving procedures such as artificial respiration and heart massage, and what to do in the event of poisonings, obstetrical problems, and other emergencies are explained step by step.

But a veterinary handbook is not a substitute for professional care. Advice from a book can never be as helpful or as safe as actual medical advice. No text can replace the interview and the hands-on examination that enables a veterinarian to make a speedy and accurate diagnosis.

However, the knowledge provided in this book will enable you to more effectively cooperate and better understand your interactions with your veterinarian. You'll be more alert to the signs of health problems and better able to describe them. You'll know more about basic care for your dog, and you'll be prepared in an emergency.

FINDING IT QUICKLY

A special **Index of Signs and Symptoms** is on the inside of the front cover for fast referral. Consult this if your dog exhibits any unexplained behavior. It will help you locate the problem.

The detailed **Contents** outlines the organs and body systems that are the sites of disease. If you can locate the problem anatomically, look here first.

The **General Index** begins on page 607 and gives you a comprehensive guide to the book's medical information. Where a page number is in bold, it indicates more detailed coverage of the subject.

Cross-references note pertinent supplementary information.

A **Glossary** on page 585 defines medical terms used preferentially to best explain the subject or condition. Many of these words are now being used commonly among veterinarians and their clients. Glossary terms will usually be found in italics in the text. (Italics may also be used for emphasis.)

ACKNOWLEDGMENTS

I would like to thank Roxanne Cerda for thinking of me for this project and my incredible agent, Jessica Faust of Book Ends, for making it work. I can't say enough good things about working with Beth Adelman as my editor—it has been fun! Sandy Young, DVM, has done a great job in her technical review. And Marcella Durand has found us some images we thought might be impossible to find.

My thanks to my family, who have endured weird meals at weird times and dealt with the stress of occasional computer illnesses.

A special thank you to my three personal dogs, who oversaw this project. Ms Dani, my Belgian Tervuren bitch, offered counsel and company while making sure the school bus returned Kate and Tom every day. Hokey, my young male Belgian Tervuren, simply makes me smile—every day and often. Susan, the almost 15-year-old Pembroke Welsh Corgi who came to us as an 8-year-old, has been my shadow, my support, and an exemplification of true love.

—Debra Eldredge, DVM

TRIBUTE TO A DOG

The one absolutely unselfish friend that man can have in this selfish world, the one that never deserts him, the one that never proves ungrateful or treacherous, is his dog. A man's dog stands by him in prosperity and in poverty, in health and in sickness. He will sleep on the cold ground, where the wintry winds blow and the snow drives fiercely, if only he may be near his master's side. He will kiss the hand that has no food to offer; he will lick the wounds and sores that come in encounter with the roughness of the world. He guards the sleep of his pauper master as if he were a prince. When all other friends desert, he remains. When riches take wings and reputation falls to pieces, he is as constant in his love as the sun in its journey through the heavens.

—*Senator George Vest, 1870*

CONTENTS

Introduction xxvii

Chapter 1: EMERGENCIES 1

Handling and Restraint 2
 Muzzles 2
 Restraining for Examination and Treatment 2
 Carrying an Injured Dog 6
 Transporting an Injured Dog 7
Artificial Respiration and Heart Massage 7
 Artificial Respiration 8
 CPR 9
Shock 11
 Anaphylactic Shock 13
Acute Painful Abdomen 14
Broken Bones 15
Burns 16
Cold Exposure 17
 Hypothermia (Low Body Temperature) 17
 Frostbite 18
Dehydration 19
Drowning and Suffocation 20
Electric Shock 21
Heat Stroke 22
Poisoning 23
 General Treatment of Poisoning 24
 Contact Poisons 26
 Drug Poisons 26
 Rodent Poisons 27
 Antifreeze 28
 Poison Baits 29
 Insecticides 31
 Garbage and Food Poisons 33
 Chocolate 33
 Raisins, Grapes, and Other Food Poisons 34
 Corrosive Household Products 34
 Petroleum Products 35

Poisonous Plants 35
 Lead 38
 Zinc 38
 Toad and Salamander Poisoning 39
 Insect Stings and Bites 39
 Snakebites 40
 Pit Vipers (Rattlesnakes, Cottonmouths, and Copperheads) 40
 Coral Snakes. 41
 Treating Snakebites 42
 Wounds 42
 Controlling Bleeding 42
 Treating Wounds. 44
 Bandaging a Wound 47

Chapter 2: GASTROINTESTINAL PARASITES 51

Deworming Puppies and Adult Dogs 51
 Deworming Puppies. 52
 Deworming Adult Dogs. 53
 How to Control Worms. 53
 Ascarids (Roundworms) 56
 Hookworms (Ancylostoma) 58
 Tapeworms 60
 Whipworms 61
 Threadworms (Strongyloides). 62
 Other Worm Parasites 62
 Pinworms 62
 Trichinosis. 62
 Lungworms. 62
 Lung Flukes 63
 Heartworms 63

Chapter 3: INFECTIOUS DISEASES. 65

Bacterial Diseases 65
 Brucellosis. 65
 Leptospirosis 66
 Bordetella Bronchiseptica. 67
 Salmonella 68
 Campylobacteriosis 69
 Coliobacillosis (E. Coli) 69
 Lyme Disease 70
 Viral Diseases. 71
 Distemper. 71
 Canine Herpesvirus Infection 73

<i>Infectious Canine Hepatitis</i>	74
<i>Rabies</i>	75

Chapter 6: THE EARS 205

Basic Ear Care	206
<i>Avoiding Ear Problems</i>	206
<i>Cleaning the Ears</i>	207
<i>How to Apply Ear Medicines</i>	208
<i>Antibiotics for the Ear</i>	208
The Ear Flap	209
<i>Bites and Lacerations</i>	209
<i>Allergic Otitis (Ear Allergy)</i>	210
<i>Swollen Ear Flap</i>	210
<i>Fly Bite Dermatitis</i>	211
<i>Frostbite</i>	211
<i>Ear Fissure</i>	211
<i>Marginal Seborrhea</i>	212
The Ear Canal	212
<i>External Otitis</i>	212
<i>Otodectic Mange (Ear Mites)</i>	214
<i>Foreign Bodies and Ticks in the Ear</i>	215
<i>Ceruminous Gland Tumors</i>	215
The Middle Ear	216
<i>Otitis Media (Middle Ear Infection)</i>	216
The Inner Ear	217
<i>Internal Otitis (Inner Ear Infection)</i>	217
<i>Labyrinthitis</i>	217
Deafness	218

Chapter 7: THE NOSE 221

Signs of Nasal Irritation	222
<i>Nasal Discharge</i>	222
<i>Sneezing</i>	222
<i>Mouth Breathing</i>	223
The Nose	223
<i>Stenotic Nares (Collapsed Nostrils)</i>	223
<i>Nasal Solar Dermatitis (Collie Nose)</i>	224
<i>Nasal Depigmentation</i>	225
<i>Plastic Dish Nasal Dermatitis</i>	226
<i>Hyperkeratosis (Nasal Callus)</i>	226
The Nasal Cavity	226
<i>Epistaxis (Nosebleeds)</i>	226
<i>Foreign Body in the Nose</i>	227

<i>Oral-Nasal Fistula</i>	227
<i>Allergic Rhinitis</i>	227
<i>Rhinitis and Sinusitis</i>	228
<i>Nasal Mites</i>	228
<i>Nasal Polyps and Tumors</i>	229

Chapter 8: THE MOUTH AND THROAT 231

How to Examine the Mouth	231
Signs of Mouth and Throat Disease	232
The Mouth	233
<i>Cheilitis (Inflammation of the Lips)</i>	233
<i>Lip Fold Pyoderma</i>	233
<i>Mouth Lacerations</i>	234
<i>Mouth Burns</i>	234
<i>Stomatitis (Sore Mouth)</i>	235
<i>Oral Papillomas</i>	236
<i>Foreign Objects in the Mouth</i>	236
<i>Growths in the Mouth</i>	238
Teeth and Gums	239
<i>Deciduous and Adult Teeth</i>	239

<i>Treating Heartworm Disease</i>	345
<i>Heartworm Prevention</i>	347
Anemia and Clotting Disorders	349
<i>Blood-Loss Anemia</i>	349
<i>Hemolytic Anemias</i>	350
<i>Inadequate Red Blood Cell Production</i>	351
<i>Clotting Disorders</i>	352

Chapter 12: THE NERVOUS SYSTEM 355

Neurological Evaluation	356
Head Injuries	357
<i>Skull Fractures</i>	357
<i>Open Fontanel</i>	357
<i>Brain Injuries</i>	357
<i>Treating Head Injuries</i>	358
Brain Diseases	360
<i>Encephalitis (Brain Infection)</i>	360
<i>Granulomatous Meningoencephalitis</i>	361
<i>Brain Tumors and Abscesses</i>	361
<i>Stroke</i>	362
Hereditary Diseases	363
<i>Hereditary Myopathies (Muscular Dystrophy)</i>	363
<i>Degenerative Myelopathy</i>	364
<i>Inherited Neuropathies</i>	365
<i>White Dog Shaker Syndrome</i>	366
<i>Cerebellar Diseases</i>	366
<i>Hydrocephalus</i>	367
Seizure Disorders	367
<i>Epilepsy</i>	369
<i>Narcolepsy and Cataplexy</i>	370
<i>Compulsive Behaviors</i>	370
<i>Aggressive Behaviors</i>	371
Coma	371
Weakness or Paralysis	372
<i>Tick Paralysis</i>	372
<i>Botulism</i>	373
<i>Coonhound Paralysis</i>	373
<i>Myasthenia Gravis</i>	373
<i>Hypokalemia (Low Serum Potassium)</i>	374
Spinal Cord Diseases	374
<i>Spinal Cord Injuries</i>	375
<i>Infections and Tumors</i>	376
<i>Ruptured Discs</i>	376
<i>Fibrocartilagenous Embolic Myelopathy</i>	379
<i>Wobbler Syndrome</i>	379
<i>Cauda Equina Syndrome</i>	379
<i>Spondylosis (Bone Spurs)</i>	380
Peripheral Nerve Injuries	380
<i>Dead Tail or Limber Tail</i>	381

Chapter 13: THE MUSCULOSKELETAL SYSTEM 383

Limping or Lameness	384
<i>Determining the Cause</i>	384
<i>Diagnostic Tests</i>	386
Bone and Joint Injuries	386
<i>Osteomyelitis (Bone Infection)</i>	386
<i>Sprains</i>	387
<i>Tendon Injuries</i>	387
<i>Muscle Strains</i>	388
<i>Luxation (Dislocated Joint)</i>	388
<i>Stifle Injuries</i>	390
Inherited Orthopedic Diseases	392
<i>Hip Dysplasia</i>	392
<i>Legg-Perthes Disease</i>	397
<i>Luxating Patella (Slipping Kneecap)</i>	397
<i>Elbow Dysplasia</i>	398
<i>Osteochondrosis</i>	400
<i>Panosteitis (Wandering Lameness)</i>	400
Arthritis	401
<i>Osteoarthritis (Degenerative Joint Disease)</i>	401
<i>Immune-Mediated Arthritis</i>	406
<i>Infectious Arthritis</i>	406
Metabolic Bone Diseases	407
<i>Hyperparathyroidism</i>	407
<i>Hypertrophic Osteodystrophy</i>	408
Vitamin and Mineral Supplements	408

Chapter 14: THE URINARY SYSTEM 411

Signs of Urinary Tract Disease	412
<i>Dysuria (Painful Urination)</i>	412
<i>Hematuria (Blood in the Urine)</i>	412
<i>Polyuria (Excessive Urination)</i>	413
<i>Urinary Incontinence</i>	413
Diagnosing Urinary Tract Diseases	413
Diseases of the Bladder and Urethra	414
<i>Cystitis (Bladder Infection)</i>	414
<i>Bladder and Urethral Stones</i>	415
<i>Obstructed Bladder</i>	416
<i>Urinary Incontinence</i>	416

Enlarged Prostate	418
<i>Benign Prostatic Hyperplasia</i>	419
Prostatitis	419
Prostate Cancer	420
Kidney Disease	420
Congenital Kidney Problems	420
Pyelonephritis (Kidney Infection)	422
Nephritis and Nephrosis	423
Uremia (Kidney Failure)	423
Dialysis	425
Kidney Transplant	426

Chapter 15: SEX AND REPRODUCTION 427

The Basics of Genetics	428
<i>Inheriting Problem Genes</i>	428
Breeding Purebred Dogs	430
<i>Following Bloodlines</i>	431
The Brood Bitch	432
The Stud Dog	435
The Estrous (Heat) Cycle	436
Hormonal Effects During Estrous	439
When to Breed	440
The Tie	440
Mating Procedures	441
Getting Ready	441
Normal Mating	442
Helping the Mating Along	442
A Prolonged Tie	443
Shy Breeders and Dogs Who Won't Mate	443
Artificial Insemination	444
Male Infertility	446
Impotence	447
Evaluating Infertility in the Stud Dog	447
Treating Male Infertility	448
Female Infertility	448
Evaluating Infertility in the Bitch	448
Infertility with a Normal Estrous Cycle	449
Abnormal Estrous Cycles	449
Fetal Loss During Pregnancy	452
Pseudocyesis (False Pregnancy)	454
Unwanted Pregnancy	455

Preventing Pregnancy	456
<i>Ovariohysterectomy (Spaying)</i>	456
<i>Contraceptive Drugs</i>	457
<i>Castration (Neutering)</i>	458
Diseases of the Female Genital Tract	459
<i>Vaginitis (Vaginal Infection)</i>	459
<i>Vaginal Hyperplasia and Prolapse</i>	460
<i>Pyometra and Cystic Endometrial Hyperplasia</i>	461
<i>Endometritis</i>	462
Diseases of the Male Genital Tract	463
<i>Balanoposthitis (Infection of the Prepuce and Head of the Penis)</i> . . .	463
<i>Phimosis (Strictured Foreskin)</i>	464
<i>Paraphimosis (Penis Trapped Outside the Sheath)</i>	464
<i>Undescended Testicles</i>	465
<i>Orchitis (Infection of the Testicles)</i>	465
<i>Testicular Hypoplasia and Degeneration</i>	466

Chapter 16: PREGNANCY AND WHELPING 467

Pregnancy	467
<i>Prenatal Checkups</i>	469
<i>Care and Feeding During Pregnancy</i>	469
<i>Preparing for Whelping</i>	471
Whelping	472
<i>Signs of Whelping</i>	473
<i>Labor and Delivery</i>	473
<i>Assisting a Normal Delivery</i>	476
<i>Helping a Puppy to Breathe</i>	477
Dystocia (Prolonged or Difficult Labor)	477
<i>Physical Blockage</i>	478
<i>Uterine Inertia</i>	479
<i>When to Call the Veterinarian</i>	480
<i>Cesarean Section</i>	480
Postpartum Care of the Dam	481
<i>Feeding a Nursing Dam</i>	481
<i>Drugs and Lactation</i>	482
Postpartum Problems	482
<i>Subinvolution of Placenta Sites</i>	482
<i>Acute Metritis (Infected Uterus)</i>	483
<i>Mastitis</i>	484
<i>Eclampsia (Milk Fever)</i>	485
<i>Agalactia (Absence of Milk)</i>	486
Maternal Neglect	487
